

The Harrisburg - Hershey Chapter of
Physicians for Social Responsibility
and
The Harrisburg Rotary Club

cordially invite you to attend

The Peace Garden Gala
with
Richard Alley, Ph.D.
Professor of Geoscience, Pennsylvania State University

**A Look at the Future: Historic Insight to Solutions on
Climate and Energy**

Wednesday, Oct. 10, 2018
West Shore Country Club, Camp Hill

Once again we offer you the opportunity to join together for an evening of fellowship, conversation, good food, and a chance to explore important issues of the day.

This year will feature Richard Alley, who has done extensive research in the ice fields and has communicated his knowledge to his students and to the public with the PBS documentary *Earth, the Operators' Manual*.

The evening's proceeds will help support the Harrisburg Peace Garden, founded and maintained by the Harrisburg-Hershey chapter of Physicians for Social Responsibility, the City of Harrisburg, and now the Rotary Club of Harrisburg. Here we plant flowers, trees, and ideas of peace, justice, health, and harmony with our planet.

**Support the Peace Garden, your community, and life everywhere -
join us on October 10!**

About our speaker. . .

Richard B. Alley, Ph.D., is Professor of Geoscience at Penn State University and has extensive research experience with Greenland ice sheets as well as Antarctica. He uses these ice core pictures from the past to have a look into the future. This is described in an award-winning book, “The Two-Mile Time Machine - ice Cores, Abrupt Climate Change, and Our Future.”

Richard is an outstanding communicator, as demonstrated in the PBS documentary and book *Earth, The Operators’ Manual*.

He has received many awards, including the Geological Society of London’s prestigious Wollaston Medal. He has been elected to the U. S. National Academy of Sciences. He has also contributed to the International Panel on Climate Change, which shared the 2007 Nobel Prize with Al Gore.

Richard was educated at Ohio State University and received his Ph.D. from the University of Wisconsin.

We are fortunate to have Richard share his knowledge and enthusiasm for a solution to our climate concerns.

Richard explains his enthusiasm by saying, “Our two lovely daughters give me a personal as well as a professional stake in the search for a stable, sustainable world. Onward!”

Wednesday, October 10

6:00 Cash bar

7:00 Dinner

Please return the enclosed reservation by September 29!

We will be charged a \$10 penalty for late reservations.

West Shore Country Club - 6:00 PM, Wednesday, Oct. 10, 2018
